Signature: _____ Date: _____

Instructions for Filing the DEQ Form ASN 8 Title V Asbestos Inspection Notification

Notification: Oregon asbestos rules requires written notification to DEQ prior to any demolition at an Oregon address, at an Oregon Title V Operating Source where no asbestos was identified based on an asbestos survey performed by an accredited inspector (OAR 340-248-0240). [The local DEQ Regional Office](#) must receive the completed notification 10 days before commencing the demolition project. You will not receive a copy of the form or a receipt from DEQ. Keep a copy of the form for your records. Unless notified otherwise, you may begin your project as scheduled on the notification.

Mail or fax the notification to the DEQ Regional Office identified in the facilities Title V Operating Permit.

Revisions to Notifications: The appropriate DEQ Regional Office must be notified if there are changes to the scheduled starting or completion dates or any other substantial changes. Submit the revisions prior to the changes taking place. The simplest way to do this is to fax DEQ a copy of the original notice, circling the changes.

Fax the revisions to the appropriate DEQ Regional Office: Gresham fax 503-674-5148, Salem fax 503-378-4196, Medford fax 541-776-6262, Coos Bay fax 541-269-7984, Bend fax 541-388-8283, Pendleton fax 541-278-0168.

Filling out the form: Complete all of the information requested on the form. Following are some guidelines for providing the required information.

Contractor Information: Include the name, address, phone number and CCB license number of the individual or contractor that will be performing the demolition.

Project Site Address: Include the building name and/or number, address or location or any other identifying information.

Building Information: Include the age and present or past use of the building. Describe the structure's interior and exterior.

Project Starting and Completion Dates: List the dates the demolition project will start and will be completed.

Major Source Information: Include the owner or operator's name of the Major Source, the facility address, the site contact name and their phone number.

Asbestos Survey Information: List the name or the consultant who performed the asbestos survey, along with their address and phone number. Include the inspector's accreditation number and the date of the asbestos survey report.

Signing the Form: The notification must be signed by the owner or operator of the facility. By signing the form, the facility is certifying that no asbestos-containing materials were identified during the asbestos survey and if any asbestos-containing materials are uncovered during the demolition procedures outlined in OAR 340-248-0250 through 340-248-0290 will be followed.
