Vehicle Inspection Program, (V.I.P.)

Recognized Automotive Repair Shops

(R.A.R.S)

Spring: 2011

The facilities listed on the following pages have volunteered to be recognized by DEQ. They demonstrated they have the required diagnostic equipment and trained technicians to do emission testing, related adjustments and repairs.

This listing is not a recommendation from DEQ, and DEQ does not guarantee the work of the listed facilities. It is simply a guide to facilities that meet minimum experience and equipment requirements. You need to screen the facility to ensure they can repair your vehicle.

If you are the owner of an auto repair facility and are interested in becoming a Recognized Auto Repair Shop, please contact DEQ's Vehicle Inspection Program at (971) 673-1630.

Eco-logical Business/Automotive Services Program

This program is a joint project of associations representing the automotive repair trades, the Pollution Prevention Outreach Team, and AAA of Oregon/Idaho. It also provides assistance to businesses for help in meeting and exceeding environmental standards.

Shops certified as **Eco-Logical Businesses** receive a window sticker, framed certificate, customer brochures and other identifying information. These shops are also given publicity about their good work and clean shop along with strengthened relationships with existing customers and environmental agencies.

For more information about **Eco-Logical Business**, visit www.ecobiz.org or call 503.234.3000.
