Please complete the application and submit the \$1660 application fee\* (\$1600 fee + \$60 Surcharge) and required attachments. **NOTE:** Each model or configuration requires a separate application packet with the required fee.

Name of Product: \_\_\_\_\_ Model #: \_\_\_\_\_

**REFERENCE INFORMATION - Please Print**

Corporate Name: \_\_\_\_\_

Exact Business Name: \_\_\_\_\_

Mailing Address: \_\_\_\_\_

Name of Contact Person: \_\_\_\_\_ Phone: \_\_\_\_\_

Email: \_\_\_\_\_

**Please provide the following attachments:**

1. The system is NSF International Class I certified as meeting NSF International (NSF) Standard 40 Protocol. NSF "Certified" refers to the initial certification process and the ongoing certification process as required by NSF.
2. Documentation that the ATT meets the performance requirements in OAR 340-071-0345(3)
3. A guide for inspecting the ATT installation.
4. A plan for training agents and system installers on installation and inspection of ATT.
5. A plan for training O&M maintenance providers on system maintenance.
6. Detailed plans showing the system complies with the requirements in OAR 340-071-0345 (5), (6), (7), and (9).
7. A completed checklist (following page).
8. System O&M manual outlining minimum maintenance frequency.

**Mail the application package to:**
